SEE WHAT PARTICIPANTS FROM LAST YEAR SAID

"The biggest challenge was to recognize and extract most critical data and information we needed to solve the case in a short period of time."

"I particularly liked that Digital Strategy Cup required creativity and strong time management, while collaborating with new people, some of which, although from Croatia or Slovenia, were on different continents."

"Personally, I have never worked with a better team so far and never had such good mentors that managed to challenge me and the whole team from distance."

"The most important thing is the people I met, both from BCG and my team members. Also, presentation skills we learned are very useful tool for our further consulting careers, very different from academic purposes in university."
